## EDUCATION

### Georgia Institute of Technology - Atlanta, GA

- Bachelor of Science: Computer Science, specialized in Media and Intelligence
  - Expected Graduation: December 2024
- 

## PROJECTS

### From Nava (2D Top-Down Action-Adventure Puzzle – 25+ Members)

*November 2022 – Present*

- Implemented Agile methodology with Trello across many sub-teams for task delegation/scope management
- Prioritized iterative playtesting by including open to the public playtest events after each milestone
- Organized events and showcases at DreamHack ATL and Independent Games Festival @ GDC
- Calculated release and marketing scope for a planned December 2023 launch on Steam

### PotExpress Web App (Mobile Delivery Service – 5 Members)

*August 2022 – May 2023*

- Integrated task management structure with Jira using Scrum methodology to fulfill client's frequent requests
- Identified key issue with client's demand for avoiding the App Store and adapted by creating a web app
- Prioritized project documentation and client communication, recording meeting minutes for progress
- Managed version control with consistent code reviews via GitHub, reviewing over 300 commits

### Admiral Defense (3D Tower Defense – 6 Members)

*January 2022 – May 2022*

- Applied GitHub/ZenHub task management structure following Waterfall methodology
  - Coordinated meetings and communication by prioritizing essential tasks and executing effective meetings
  - Prevented missed deadlines by actively readjusting task scheduling to meet members' school-life balance
  - Reduced project scope upon developing overall game design concept by reusing assets strategically
- 

## WORK/LEADERSHIP EXPERIENCE

### Video/Media Production Assistant

*May 2022 – August 2022*

#### QuickStart Video/Media Department - Atlanta, GA

- Led full employee training video production for NIBCO and other undisclosed clients
- Delivered finalized videos to clients and responded to client requests for immediate changes
- Took charge in overall video editing and voice-over audio recording/mixing of employee training videos
- Spearheaded changes in project management structure away from Waterfall and towards Agile

### Treasurer

*June 2023 – Present*

#### VGDev Leadership - Georgia Tech – 200+ Members

- Managed semester budget by allocating new funding for events (GDC, DreamHack ATL) using Excel
  - Improved how budget is tracked by revamping entire budgeting structure, expediting funding requests
  - Organized club's professional events such as game showcases and programming workshops
-
